

# ContraPest Bait Station

## for Isolate Bait System

### 1. PLACE STATIONS

- Place bait stations where rats are known to be feeding (e.g., dumpsters, animal feed, loose trash, etc.).
- When possible, utilize areas where previous baiting has been successful (keep bait stations at least 30 feet away from lethal methods).

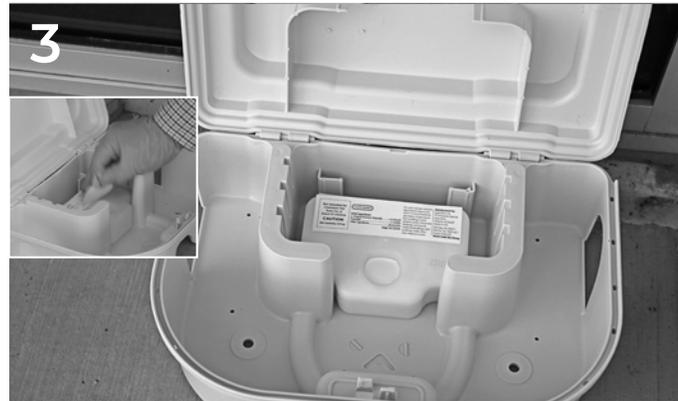

### 2. DEPLOY CONTRAPEST®

- Place one (1) Isolate Bait System with ContraPest in the station compartment.
- Remove seal.

### 3. MONITOR

- Add a second ContraPest Bait Station if 50% or more of the Isolate Bait System has been consumed between service visits to ensure a constant supply.
- If consumption is repeatedly low or ceases, try relocating the bait station to a different location.

### 4. MAINTAIN

- Replace ContraPest monthly or as often as needed if consumption is high for optimal performance.

# Protecta EVO Express® for Isolate Bait System

## 1. PLACE STATIONS

- Best baiting locations are where rats are known to be feeding (e.g., dumpsters, animal feed, loose trash, etc.).
- When possible, utilize areas where previous baiting has been successful (keep bait stations at least 30 feet away from lethal methods).

## 2. DEPLOY CONTRAPEST®

- Place one (1) Isolate Bait System with ContraPest in the station compartment.
- Remove seal.

## 3. MONITOR

- Add a second Isolate Bait System with ContraPest to stations when 50% or more of the tank has been consumed between service visits to ensure a constant supply.
- If consumption is repeatedly low or ceases, try relocating the bait station to a different location.

## 4. MAINTAIN

- Replace ContraPest monthly or as often as needed if consumption is high for optimal performance.
